

SPOTKANIE Z KOORDYNATORAMI PROJEKTU Z UK

6 marca nasza szkoła gościła głównych koordynatorów naszego projektu. Mieliśmy przyjemność podzielić się naszymi obserwacjami z Panem Nicolasem Falkiem i Panią Anne Jenkins. Uczniów klas szóstych reprezentowali: Małgosia Suchocka z klasy 6a, Marysia Krogulec, Karolina Piórkowska i Wiktor Haber z klasy 6b. Poniżej przedstawiamy raport przygotowany przez naszych gości.
Miłej lektury:)

ZSO SSP No 14 and SG No 4 Warsaw

Hosts: Rafał Szczęsny, Bartosz Tymiński and Beata Gryz
Detailed handouts produced by the school gave extensive information. This included carefully constructed evaluation sheets.
The school is constantly evaluating the organisational methods and motivation of the students to obtain the best results

One of the aims is to stretch the students mathematically and intellectually in order to teach new skills and concepts.

They showed a flexible, innovative approach with clear aims and teacher input in order to keep all students motivated

The same question was used with different classes for comparison. Students choose their own working groups but teachers facilitated in order to give a variety of working experience. There was no reliance on computers but a variety of working methods was considered important.

Developing other skills are also a priority leadership, group working, listening, motivating

Student input – 3 students expressed their thoughts about the work they had been involved in - aged 11- 12 years – impressive levels of motivation and English language skills.
